

BENEFITS OFFERED TO PARTICIPANTS

The training for the invited participants will be free of cost without any registration fee. Participants will also be reimbursed travel expenses and will be provided with boarding and lodging facility as per the ICSSR norms. A certificate of participation will be provided on successful completion of training.

IMPORTANT DEADLINES

Last date for sending Nomination: **10th July, 2025.**

Confirmation of participation: The acceptance will be communicated by **12th July, 2025** through e-mail and will also be available at www.svsu.ac.in

RESOURCE PERSONS

Resources persons will be an eminent and accomplished scholars from reputed Institutions, Departments/Universities.

CHIEF PATRON

Prof.(Dr.) Dinesh Kumar
Vice Chancellor, SVSU

PROGRAMME DIRECTOR

Prof. Rishipal

Professor, SVSU
Mob: 9818309827

Village Dudhola, Distt. Palwal, (Haryana) 121102

**10 Days Workshop on
"Research Methodology : Research for Re-Surgence"**
15th July - 25th July, 2025

Sponsored by

Indian Council of Social Science Research (ICSSR)

Under the aegis of

**Skill Faculty of Management Studies & Research
& Department of Pedagogy and Capacity Building**

ABOUT THE UNIVERSITY

Shri Vishwakarma Skill University (SVSU), established in Palwal, Haryana, is India's first Government Skill University, dedicated to providing high-quality skill education. It was set up to develop entrepreneurship, skill based competency and research in the emerging areas of various sectors. The university offers dual vocational education model in the integrated work and study mode in accordance with the National Skill Qualification Framework (NSQF), where students will work in the industries across various locations in the State with flexible class timings.

INTRODUCTION TO WORKSHOP

Economic development has improved the quality of life of Indian people but still there are many challenges like; inequality in income and consumption, child malnutrition, unemployment, environmental concerns, food security, potable water for all, sustainability, gender discrimination and many more. To address these challenges India has planned to attain high GDP and per capita income by 2047. This goal can be achieved by strengthening the policies, institutions, infrastructure, investments and people. Strengthening of all these factors is possible by the creation of an effective educating research and development system in the country. India must have such effective research policies, infrastructure and processes so that by using its own means, methods and measures it can solve its own problems. There are certain problems like; shortage of trained human resource, funding, infrastructure, laboratories and sensitivity towards Indian problems in the development of effective research and development systems in India. The proposed research methodology programme will help to address the problem of shortage of trained human resource, raising funding for research proposals, infrastructure building and sensitivity towards Indian problems.

OBJECTIVES

- Build capacity in research methodologies and equipping participants with skills in both quantitative and qualitative research.
- Guide participants in formulating research questions and designing studies aligned with Indian problems and ethical research standards.
- Provide training on data collection, analysis, and interpretation using appropriate software and tools.
- Develop participants' skills in presenting and publishing research findings effectively.
- The Training aims at providing research stimulus to keen learners comprising scholars, academicians and practitioners.
- To have hands on experience and practice of using SPSS and other software's for empirical estimation.
- To instill ethical principles and best practices in conducting and reporting research.

TRAINING FOCUS

Training of 10 Days Course on Research Methodology is likely to provide Ph.D. scholars, faculty members and others researchers with essential tools by using data will be collected and analyzed. With such aptitude the knowledge of operation of computer software packages like SPSS, GRETL and E- Views would enhance the user skills of the participants, who in turn can use them for more empirical research and for generating the new knowledge. Hence, the focus of the training program will be on research methodology and learning for doctoral students in the areas empirical research.

PEDAGOGY

- Combination of Lecture, Hands on Training Sessions, Demonstration with econometric and statistical softwares like SPSS, E-Views, GRETL, etc. supported by library research. Sessions will be conducted in hands on mode, which means that participants will work simultaneously with the resource person.
- Personal laptop is mandatory for all participant

TOPICS FOR WORKSHOP

- India Centric Research Based on Indian Knowledge System
- AI Applications in Research
- NEP-2020 and Funding Opportunity for Research
- Research Types, Approaches and Design
- Literature review and Bibliometric Analysis
- Standardize tool /Scale development
- Sampling Techniques and Method of Data Collection
- Hypothesis Testing
- Fundamental of Statistics and Data Analysis
- Multi variate Analysis
- Structural Equation Modeling
- Fundamental of Econometrics
- Academic Research Paper Writing
- References and Citations
- IPR Concerns in Research
- Access to Library Resources
- Hands on Training on Research Tools-SPSS/E-views/Gretl
- Case study based research

FOR WHOM

The programme is designed for faculty members/researchers/ Ph.D scholars working in approved Institutions/ Departments / Universities.

MAXIMUM PARTICIPANTS

- A maximum of 30 participants will participate for the training program as grant is approved by ICSSR, New Delhi.
- All the Participants are require to bring original hard copy of the filled application form and NOC

HOW TO APPLY

Interested candidates should submit their nomination on the prescribed form in Online Mode endorsed by the Head of the Department. Applications received after the stipulated last date will not be considered.
